Olivibacter jilunii sp. nov., isolated from DDT-contaminated soil

Kai Chen, Shu-Kun Tang, Guang-Li Wang, Guo-Xing Nie, Qin-Fen Li, Ji-Dong Zhang, Wen-Jun Li and Shun-Peng Li

In the etymology provided in the description of Olivibacter jilunii sp. nov., the latin noun jilunii is erroneously cited as jilun. The correct etymology should be as follows: jilu’ni. N.L. gen. masc. n. jilunii of Ji-Lun, to honour Ji-Lun Li, a respected Chinese microbiologist, for his enormous contributions to the development of microbiology in China.
