The Journal of General Virology

Volume 22 • Part 3 • March 1974

Non-specific Serum Inhibitors of Activity of Haemagglutinins of Rabies and Vesicular Stomatitis Viruses. By P. E. Halonen, P. Toivanen and T. Nikkari

The Effect of Canavanine on Herpes Simplex Virus Replication. By D. Bell

Polyadenylic Acid Sequences in the Virus RNA Species of Cells Infected with Semliki Forest Virus. By J. C. S. Clegg and S. I. T. Kennedy

Influenza Virus Plaque Formation in Different Species of Cell Monolayers. By A. S. Beare and K. A. Keast

Studies of the Protein and Nucleic Acid Components of Nuduraelia capensis β Virus. By J. K. Struthers and D. A. Hendry

The Biochemical and Biological Characteristics of the Surface Components of Measles Virus. By W. W. Hall and S. J. Martin

Infection of Tobacco Mesophyll Protoplasts by Potato Virus X. By Y. Otsuki, I. Takebe, Y. Honda, S. Kajita and C. Matsui

Virus-like Particles Associated with the Double-stranded RNA Species Found in Killer and Sensitive Strains of the Yeast Saccharomyces cerevisiae. By A. J. Herring and E. A. Bevan

Cleavage of Virus-specified Polypeptides in Cells Infected with Semliki Forest Virus. By M. J. Morser and D. C. Burke

ST-1 Bacteriophage: some Properties of a Host Range Mutant. By R. H. Neubauer and B. G. Young

Lysis of RNA Phage-infected Cells depends upon Culture Conditions. By A. M. Haywood

Interfering Particles from a Culture Persistently Infected with Parana Virus. By L. D. Stanek and C. J. Pfau

Capsid Polypeptides of Two Viruses Isolated from Penicillium stoloniferum. By K. W. Buck and G. F. Kempson-Jones

Occurrence of Polyamines in Myxoviruses. By U. Bachrach, S. Don and H. Wiener

Lipid and Protein Organization in Vesicular Stomatitus and Sindbis Viruses. By F. Brown, C. J. Smale and M. C. Horzinek
