The Effect of 5-Aminoacridine on the Vegetative Reproduction of Bacteriophage λ, By M. Iossoss and B. A. Fry

An Electron Microscopic Study of the Infection of Isolated Tomato Fruit Protoplasts by Tobacco Mosaic Virus. By E. C. Cocking and E. Poindexter

Carrot Mottle—a Persistent Aphid-borne Virus with Unusual Properties and Particles. By A. F. Murant, R. A. Good, I. M. Roberts and J. Cathro

Residual Infectivity and the Extent of Photoreactivation in Three Different Host Plants of u.v.-irradiated Potato Virus X. By D. A. Govier and A. Kleczkowski

Further Observations on the Structure of Influenza Virus α and C. By K. Apostolov and T. H. Flewett

Genetic Characteristics of Echovirus Type 9 Strains: Association of Mouse Virulence with Other Genetic Markers. By M. Margalith, E. Margalith and N. Goldberg

The Behaviour of Tomato Bushy Stunt Virus and Bromegrass Mosaic Virus at Different Temperatures in vivo and in vitro. By B. Kassanis and G. Lebeurier

Sequential Study on the Development of Infectious Canine Laryngotraecheitis Adenovirus. By T. Yamamoto

Alkaline Degradation of Polyoma Virus. By J. L. Perry, C. M. To and R. A. Consigli

The Relation of the DNA Polymerase to an Early Temperature-sensitive Event in the Replication of Variola Virus. By H. S. Bedson and J. G. Cruickshank

The Isolation of Ribonuclease-resistant RNA induced by Cowpea Mosaic Virus: Evidence for Two Double-stranded RNA Components. By L. J. D. van Griensven and A. van Kammen

The Inhibitory Effect of Antibody to Host Cells on Echovirus Plaques in HEp-2 Cells. By M. C. Timbury

A Transducing Bacteriophage for Proteus rettgeri. By K. Krizsanovich, H. C. de Klerk and J. A. Smith

Quantitative Assay of Interferon by the Immunofluorescent Cell-counting Technique. By E. H. Kozikowski and N. Hanon

A Possible Subunit Structure of Rous Sarcoma Virus RNA. By L. Montagnier, A. Goldè and P. Vigier

The Unmasking of Haemagglutinin in Extracts of Vaccinia-infected Calf Tissue. By C. J. M. Rondle

Requirements for RNA and DNA Synthesis in the Transformation of Mouse Embryo Cells by Murine Sarcoma Virus (Moloney). By B. M. Buck and R. Bather

The Immunological Specificity of Thymidine Kinases in Cells Infected by Viruses of the Herpes Group. By A. Buchan and D. H. Watson

CAMBRIDGE UNIVERSITY PRESS
