In Vitro Transformation by Bovine Papilloma Virus. By H. R. C. Meischke
Salmonella Phage Glycanases: Substrate Specificity of the Phage P22 Endo-rhamnosidase.
By J. Eriksson, S. Svenson, J. Lönngren and A. A. Lindberg
Molecular Species of Interferon Induced in Mouse L Cells by Newcastle Disease Virus and Polyriboinosinic-polyribocytidylic Acid. By J. S. Erickson and K. Paucker
Characterization of Two Temperature-sensitive Mutants of Adenovirus Type 5. By B. Tarod-G.
G. E. Blair, D. M. K. Rekosh and W. C. Russell
The Toxic Effect of Double-stranded RNA for Interferon-treated Cells: Evidence for a Heterogeneous Cellular Response and the Role of the Cell Nucleus. By J. A. Cooper, J. Morser, M. S. Colby and D. C. Burke
Relationship Between Single-stranded DNA Isolated from Mouse Cells Transformed by Simian Virus 40 and Transcription of Cellular and Virus Genes. By D. Shaoul, N. Hanania, J. Hazil and E. May
Hemolysis by Two Alphaviruses: Semliki Forest and Sindbis Virus. By P. Väntänen and L. Kariäänen
Polyadenylate in the RNA of Five Nepoviruses. By M. A. Mayo, H. Barker and B. D. Harrison
Morphology and Morphogenesis of a New Paramyxovirus (PMV 107). By P. A. Bachmann, B. Hüpper, A. Müller, H. Mainel and V. Ter Mullen
Purification of Measles Virus with Preservation of Infectivity, and Antigenicity. By W. J. Bellini, A. Trowsdile and D. E. McFarlin
In Vitro Synthesis and Characterization of DNA Complementary to Cadang-cadang-associated RNA. By J. W. Randles and P. Palcack
Propagation and Characterization of a C-type Virus from a Rhabdomyosarcoma of a Corn Snake. By H. F. Clark, P. R. Anderson and P. D. Lundgren
Cytotoxic T-Cell and Antibody Responses to Influenza Infection of Mice. By M. A. Wells, F. A. Esnin and S. Daniel
Phenotypic Mixing between Murine Oncoviruses and Murine Cytopathogenic. By T. J. Schröter and F. Gonzalez
Copper Chelate Affinity Chromatography of Human Fibroblasts and Leucocyte Interferons. By K. C. Chadia, P. M. Gruber, A. J. Mikulski, L. R. Davis, J. N. and E. Sulkowski
Antigenic Relationship between Polypeptides derived from Plasmodium and Human Interferons. By M. J. Staquet, J. Viecl and J. Tzvetko.
Coliphage λ Ghosts Obtained by Osmotic Shock or LiCl Treatment are Devoid of J- and H-Gene Products. By G. Konopa and K. Taylor
Evidence for a Protein Covalently Linked to Tobacco Ringspot Virus RNA. By M. A. Mayo, H. Barker and B. D. Harrison.
