THE SOCIETY FOR GENERAL MICROBIOLOGY

The Society for General Microbiology was founded to promote the advancement of microbiology, providing a common meeting ground for those working in various specialized fields including medical, veterinary, agricultural and economic microbiology. The Society is concerned with the more fundamental aspects of the study of bacteria, viruses, micro-fungi, protozoa and microscopic algae and in their various biological activities, its members being united by the common aim of developing scientific knowledge concerning micro-organisms.

The annual subscriptions to the Society for 1984 are as follows:
Ordinary Member receiving either the Journal of General Microbiology or the Journal of General Virology ..... £27.00 (U.S.$53.00)
Ordinary Member receiving both Journals .......................... £55.00 (U.S.$106.00)
Ordinary Member who does not receive Journals .......................... £12.00 (U.S.$26.00)
Student or Retired Member .......................... £5.00 (U.S.$11.00)

All correspondence concerning applications for membership, changes of name and address, or payment of subscriptions should be sent to the Society for General Microbiology, Harvest House, 62 London Road, Reading RG1 5AS, U.K.

All communications concerning the purchase of the Journals by non-members should be addressed to the Society for General Microbiology (Journal Sales), 62 London Road, Reading RG1 5AS, U.K. Further details are given at the front of this Journal.
