The Journal of General Virology
Volume 66, Part 6, June 1985

REVIEW ARTICLE
Nucleocapsid Disassembly and Early Gene Expression by Positive-strand RNA Viruses. By T. M. A. Wilson ... 1201-1207

BACTERIAL
Influence of C-terminal Modifications of φX174 Lysis Gene E on its Lysis-inducing Properties. By U. Bläsi and W. Lubitz ... 1209-1213

Expression of T4 Early Genes 62, 44, 45 and 46 in the λ-T4 Recombinant Phage λ806-17. By C. Y. Yu and K. K. Mark ... 1215-1219

FUNGAL
Isolation of a Virus from Virulent Strains of Rhizoctonia solani. By A. Finkler, Y. Koltin, I. Barash, B. Sneh and D. Pozniak ... 1221-1232

PLANT
Infection of Protoplasts Derived from Potato Shoot Cultures with Potato Virus X. By S. E. Adams, R. A. C. Jones and R. H. A. Coutts ... 1341-1346

Translation Products of RNA from Indian Peanut Clump Virus. By M. A. Mayo and D. V. R. Reddy ... 1347-1351

ANIMAL

Respiratory Syncytial Virus Polypeptides. V. The Kinetics of Glycoprotein Synthesis. By C. Gruber and S. Levine ... 1241-1247

Comparative Pathology of Isolates of Spodoptera frugiperda Nuclear Polyhedrosis Virus in S. frugiperda and S. exigua. By J. J. Hamm and E. L. Styer ... 1249-1261

The Nucleotide Sequence of the Pieris brassicae Granulosis Virus Granulin Gene. By R. Chakerian, G. F. Rohrmann, M. H. Nesson, D. J. Leisy and G. S. Beaudreau ... 1263-1269

Two Electropherotypes of Bluetongue Virus Serotype 2 from Naturally Infected Calves. By E. W. Collisson, T. L. Barber, E. P. J. Gibbs and E. C. Greiner ... 1279-1286

Contents continued on inside back cover
The Nucleocapsid of Berne Virus. By M. C. Horzinek, J. Ederveen and M. Weiss. 1287-1296

Protection from Herpes Simplex Virus-induced Neuropathology in Mice Showing Delayed Hypersensitivity Tolerance. By D. M. Altmann and W. A. Blyth. 1297-1303

Isolation and Characterization of Deletion Mutants of Herpes Simplex Virus Type 2 (Strain HG52). By J. Harland and S. M. Brown. 1305-1321

Genetic Relationships of the Dengue Virus Serotypes. By J. Blok. 1323-1325

Induction of Influenza A Virus Cross-reactive Cytotoxic T Cells by a Nucleoprotein/Haemagglutinin Preparation. By D. C. Wraith and B. A. Askonas. 1327-1331

Cytotoxic T Cell Lysis of Target Cells Fused with Liposomes Containing Influenza Virus Haemagglutinin and Neuraminidase. By L. Stitz, R. T. C. Huang, H. Hengartner, R. Rott and R. M. Zinkernagel. 1333-1339

THE SOCIETY FOR GENERAL MICROBIOLOGY

The Society for General Microbiology was founded to promote the advancement of microbiology, providing a common meeting ground for those working in various specialized fields including medical, veterinary, agricultural and economic microbiology. The Society is concerned with the more fundamental aspects of the study of bacteria, viruses, micro-fungi, protozoa and microscopic algae and in their various biological activities, its members being united by the common aim of developing scientific knowledge concerning micro-organisms.

The annual subscriptions to the Society for 1985 are as follows:
Ordinary Member receiving either the Journal of General Microbiology or the Journal of General Virology £28.00 (U.S.$45.00)
Ordinary Member receiving both Journals £55.00 (U.S.$88.00)
Ordinary Member who does not receive Journals £12.00 (U.S.$20.00)
Student or Retired Member £5.00 (U.S.$8.00)

All correspondence concerning applications for membership, changes of name and address, or payment of subscriptions should be sent to the Society for General Microbiology, Harvest House, 62 London Road, Reading RG1 5AS, U.K.

All communications concerning the purchase of the Journals by non-members should be addressed to the Society for General Microbiology (Journals Sales), 62 London Road, Reading RG1 5AS, U.K. Further details are given at the front of this Journal.
