# The Journal of General Virology

## Volume 67, Part 1, January 1986

### REVIEW ARTICLE

Viral Infections in Domestic Animals as Models for Studies of Viral Immunology and Pathogenesis. By H. Bielefelt Ohmann and L. A. Babiuk ........................................ 1–25

### FUNGAL

### PLANT

Characterization of Monoclonal Antibodies against Potato Virus X and Comparison of Serotypes with Resistance Groups. By L. Torrance, A. P. Larkins and G. W. Butcher ........................................ 57–67

Spectroscopic Studies on Purified Particles and Isolated RNA of Cucumber Mosaic Virus. By P. Piazzolla, V. Guantieri and A. M. Tamburro ................................. 69–74

Serological Relationships among Tombusviruses. By R. Koenig and A. Gibbs ........................................ 75–82

Detection of Polyadenylated Subgenomic RNAs in Leaves Infected with the Potexvirus Daphne Virus X. By P. J. Guilford and R. L. S. Forster ........................................ 83–90

The 80K Polypeptide Associated with the Replication Complexes of Cauliflower Mosaic Virus Is Recognized by Antibodies to Gene V Translation Product. By P. Laquel, V. Ziegler and L. Hirth ........................................ 197–201

### ANIMAL

Replication of Lactate Dehydrogenase-elevating Virus in C58 Mice and Quantification of Antiviral Antibodies and of Tissue Virus Levels as a Function of Development of Paralytic Disease. By W. A. Cafruny, C. R. Strancke, K. Kowalchyk and P. G. W. Plagemann ........................................ 27–37

Organization of Cytoskeleton Elements during Herpes Simplex Virus Type 1 Infection of Human Fibroblasts: An Immunofluorescence Study. By B. Norrild, V.-P. Lehto and I. Virtanen ........................................ 97–105

Definition of Two New Groups of Atypical Rotaviruses. By S. Pedley, J. C. Bridger, D. Chasey and M. A. McCrae ........................................ 131–137

Contents continued on inside back cover

pH-dependent Fusion between the Flavivirus West Nile and Liposomal Model Membranes. By S. W. GOLLS and J. S. PORTERFIELD ........................................... 157–166

Intracellular Protein Synthesis During Standard and Defective Hz-1 Virus Replication. By J. P. BURAND and H. A. WOOD .................................................. 167–173

Viral DNA Sequences Detected in a Hamster Liposarcoma Induced by Bovine Papillomavirus Type 4. By M. H. MOAR, W. F. H. JARRETT and B. W. O'NEIL .............................................. 187–190

CORRIGENDUM

Monoclonal Antibodies to Murine Retrovirus Protein p30. By J. C. CHUAT, M. GRCE, C. PILON and M. C. GUILLLEMIN ........................................... 219

THE SOCIETY FOR GENERAL MICROBIOLOGY

The Society for General Microbiology was founded to promote the advancement of microbiology, providing a common meeting ground for those working in various specialized fields including medical, veterinary, agricultural and economic microbiology. The Society is concerned with the more fundamental aspects of the study of bacteria, viruses, micro-fungi, protozoa and microscopic algae and in their various biological activities, its members being united by the common aim of developing scientific knowledge concerning micro-organisms.

The annual subscriptions to the Society for 1986 are as follows:

Ordinary Member receiving either the Journal of General Microbiology or the Journal of General Virology .............................................. £30.00 (U.S.$48.00)

Ordinary Member receiving both Journals .............................................. £55.00 (U.S.$88.00)

Ordinary Member who does not receive Journals ...................................... £10.00 (U.S.$16.00)

Student or Retired Member receiving either the Journal of General Microbiology or the Journal of General Virology ......................................... £15.00 (U.S.$24.00)

Student or Retired Member receiving both Journals ...................................... £30.00 (U.S.$48.00)

Student or Retired Member who does not receive Journals ................................ £5.00 (U.S.$8.00)

All correspondence concerning applications for membership, changes of name and address, or payment of subscriptions should be sent to the Society for General Microbiology, Harvest House, 62 London Road, Reading RG1 5AS, U.K.

All communications concerning the purchase of the Journals by non-members should be addressed to the Society for General Microbiology (Journal Sales), 62 London Road, Reading RG1 5AS, U.K. Further details are given at the front of this Journal.
