This major new work encompasses both the theoretical basis and practical details of virology as applied to human disease. Human viruses are given comprehensive coverage: each fully-illustrated chapter provides an account of a virus or a virus group with detailed sections on structure, pathogenesis, clinical features, diagnosis, management and prevention.

Written by leading experts in their disciplines, this major new book brings together reports of the latest advances in the field; of special interest will be the chapter on Human Retroviruses which features state-of-the-art information on AIDS.

The end result is an invaluable, practical tool for virologists, infectious disease physicians, medical microbiologists, epidemiologists, public health specialists, and paediatricians.

Contents

**HERPES VIRUS INFECTIONS:** Herpes Simplex M. Longson; Varicella-zoster R.B. Heath; Cytomegalovirus P.D. Griffiths; Epstein-Barr Virus D.H. Crawford, J.M.B. Edwards; HEPATITIS VIRUSES A.J. Zucker-

man; VIRUSES CAUSING GASTROENTERITIS: Rotaviruses, Caliciviruses, Astroviruses, Small Round Viruses C.R. Madeley; RESPIRATORY TRACT VIRUSES: Influenza C.W. Potter; Parainfluenza D.M. McLean; Respiratory Syncytial Virus C. Breeze Hall, Adenoviruses G. Wadell; Rhabdoviruses B.M. Farr, J.M. Gwaitney; Coronaviruses M.R. Macnaughton; MEASLES M.J. Carter, V. ter Meulen; RUBELLA J.M. Best, J.E. Banatvala; MUMPS P. Leinikki; PICORNAVIRUSES: Polio, Coxsackieviruses, Echoviruses G. Schild, P. Minor, D. McGrath; POXVIRUSES D. Boxby; ALPHAVIRUSES, FLAVIVIRUSES AND BUNYA-

**VIRIDAE** J.S. Porterfield; VIRAL HAEMORRHAGIC FEVERS C.R. Howard, D.J.H. Simpson, D.S. Ellis; RABIES K.O. Nicholson; PAPOMAVIRUSES: Papillomaviruses and Polyomaviruses D. McCance; Human Parvoviruses and Polyomaviruses D. McCance; Human Parvoviruses M.J. Anderson; HUMAN RETRO-

**VIRUSES** A. Dalgleish, R.A. Weiss; HUMAN SLOW VIRUS INFECTIONS — Prion Disease S.D. Prusiner.
