The Journal of General Virology
Volume 67, Part 3, March 1986

PLANT
Characterization of Monoclonal Antibodies to a U.K. Isolate of Barley Yellow Dwarf Virus. By L. TORRANCE, M. T. PEAD, A. P. LARKINS and G. W. BUTCHER

Studies on the Phenomenon of Turnip Yellow Mosaic Virus RNA Release by Freezing and Thawing. By M. KATOUZIAN-SAFADI and A. L. HAENNI

ANIMAL

Severity of Fever in Influenza: Differential Pyrogenicity in Ferrets Exhibited by H1N1 and H3N2 Strains of Differing Virulence. By D. M. COATES, C. SWEET and H. SMITH

Isolation of a Paramyxovirus from Pigs in Israel and Its Antigenic Relationships with Avian Paramyxoviruses. By M. LIPKIND, D. SHOHAM and E. SHIHMANTER

Evolution of Vesicular Stomatitis Virus in Athymic Nude Mice: Mutations Associated with Natural Killer Cell Selection. By S. B. VANDEPOL and J. J. HOLLAND

Prolongation of Scrapie Incubation Period by an Injection of Dextran Sulphate 500 within the Month Before or After Infection. By C. F. FARQUHAR and A. G. DICKINSON

Molecular Cloning of Complementary DNA to Newcastle Disease Virus, and Nucleotide Sequence Analysis of the Junction between the Genes Encoding the Haemagglutinin-Neuraminidase and the Large Protein. By P. CHAMBERS, N. S. MILLAR, R. W. BINGHAM and P. T. EMMERSON

In vitro and in vivo Properties of the Virus Causing Natural Canine Distemper Encephalitis. By T. KIMOTO

Plasma Membrane Proteins and Glycoproteins Induced by Human Cytomegalovirus Infection of Human Embryonic Fibroblasts. By G. SULLIVAN-TAILYOUR and H. M. GARNETT

Properties of a Novel DNA Virus from the Tsetse Fly, Glossina pallidipes. By M. O. ODINDO, C. C. PAYNE, N. E. CROOK and P. JARRETT

Replication of Atypical Ovine Rotavirus in Small Intestine and Cell Culture. By D. CHASEY and J. BANKS

Diarrhoea in Mice Infected with a Human Rotavirus. By V. S. GOUVEA, A. A. ALENCAR, O. M. BARTH, L. DE CASTRO, A. M. FIALHO, H. P. ARAÚJO, S. MAJEROWICZ and H. G. PEREIRA

Contents continued on inside back cover
Human Papillomavirus Type 16 DNA in Genital Tumours: A Pathological and Molecular Analysis. By D. Di Luca, S. Pilotti, B. Stefanon, A. Rotola, P. Monini, M. Tognon, G. De Palo, F. Rilke and E. Cassai ........................................... 583–589
Neutralizing (54K) and Non-neutralizing (54K and 48K) Monoclonal Antibodies against Structural and Non-structural Yellow Fever Virus Proteins Confer Immunity in Mice. By E. A. Gould, A. Buckley, A. D. T. Barrett and N. Cammack .......................................................... 591–595

THE SOCIETY FOR GENERAL MICROBIOLOGY

The Society for General Microbiology was founded to promote the advancement of microbiology, providing a common meeting ground for those working in various specialized fields including medical, veterinary, agricultural and economic microbiology. The Society is concerned with the more fundamental aspects of the study of bacteria, viruses, micro-fungi, protozoa and microscopic algae and in their various biological activities, its members being united by the common aim of developing scientific knowledge concerning micro-organisms.

The annual subscriptions to the Society for 1986 are as follows:
Ordinary Member receiving either the Journal of General Microbiology or the Journal of General Virology ................................................................. £30.00 (U.S.$48.00)
Ordinary Member receiving both Journals .................................................. £55.00 (U.S.$88.00)
Ordinary Member who does not receive Journals ....................................... £10.00 (U.S.$16.00)
Student or Retired Member receiving either the Journal of General Microbiology or the Journal of General Virology .................................. £15.00 (U.S.$24.00)
Student or Retired Member receiving both Journals ................................ £30.00 (U.S.$48.00)
Student or Retired Member who does not receive Journals ..................... £5.00 (U.S.$8.00)

All correspondence concerning applications for membership, changes of name and address, or payment of subscriptions should be sent to the Society for General Microbiology, Harvest House, 62 London Road, Reading RG1 5AS, U.K.

All communications concerning the purchase of the Journals by non-members should be addressed to the Society for General Microbiology (Journal Sales), 62 London Road, Reading RG1 5AS, U.K. Further details are given at the front of this Journal.
