REVIEW ARTICLE

BACTERIAL
Transmembrane Cation Movements during Infection of Lactobacillus lactis by Bacteriophage LL-H. By T. Alatossava, H. Jütte and H. Seiler. 1525–1532

PLANT
In situ Location of an Alfalfa Mosaic Virus Non-structural Protein in Plant Cell Walls: Correlation with Virus Transport. By C. Stussi-Garaud, J-C. Garaud, A. Berna and T. Godefroy-Colburn. 1779–1784

ANIMAL
Characterization of Monoclonal Antibodies Against the Human Immunodeficiency Virus (HIV) gag Products and Their Use in Monitoring HIV Isolate Variation. By R. B. Ferns, R. S. Tedder and R. A. Weiss. 1543–1551
Fine Structure of Cells Infected with Human Cytomegalovirus After Treatment with 9-(1,3-Dihydroxy-2-propoxymethyl)guanine. By M. A. Mobberley, T. A. Ryder, H. Hart and A. S. Tyms. 1553–1562
Synthesis of Cytomegalovirus DNA Is an Antiviral Target Late in Virus Growth. By A. S. Tyms, J. M. Davis, J. R. Clarke and D. J. Jeffries. 1563–1573
Monoclonal Antibodies to the Latent Membrane Protein of Epstein–Barr Virus Reveal Heterogeneity of the Protein and Inducible Expression in Virus-transformed Cells. By M. Rowe, H. S. Evans, L. S. Young, K. Hennessy, E. Kieff and A. B. Rickinson. 1575–1586
Glycoproteins of Bovine Viral Diarrhoea-Mucosal Disease Virus in Infected Bovine Cells. By R. O. Donis and E. J. Dubovi. 1607–1616
Neutralization of Foot-and-Mouth Disease Virus Can Be Mediated Through Any of at least Three Separate Antigenic Sites. By Q-C. Xie, D. McCahon, J. R. Crowther, G. J. Belsham and K. C. McCullough. 1637–1647

Contents continued on inside back cover
Surface Structure and RNA-Protein Interactions of Foot-and-Mouth Disease Virus. By D. J. MORRELL, E. J. C. MELLOR, D. J. ROWLANDS and F. BROWN 1649–1658

Antigenic Structure of Human Interferon ω1 (Interferon α11): Comparison with Other Human Interferons. By G. R. ADOLF 1669–1676

Rat Glial C6 Cells are Defective in Murine Coronavirus Internalization. By S. VAN DINTER and W. F. FLINTOFF 1677–1685

Sequence and N-terminal Processing of the Transmembrane Protein E1 of the Coronavirus Transmissible Gastroenteritis Virus. By H. LAUDE, D. RASSCHAERT and J-C. HUET 1687–1693

Appearance of a Soluble Form of the G Protein of Respiratory Syncytial Virus in Fluids of Infected Cells. By D. A. HENDRICKS, K. BARADARAN, K. McINTOSH and J. L. PATTERSON 1705–1714

Virological Aspects of Measles Virus-induced Encephalomyelitis in Lewis and BN Rats. By U. G. LIEBERT and V. TER MEULEN 1715–1722

Transcription in vitro of Infectious Haematopoietic Necrosis Virus, a Fish Rhabdovirus. By G. KURATH and J. C. LEONG 1767–1771
