"I can say...

'laboratory reagents for fluorescent antibody techniques, complement fixation tests, identification of bacteria and viruses, haematology, pregnancy diagnosis, buffering, radio-immunoassay, quality control sera, microfiltrations and veterinary diagnosis'

in 12.5 seconds!
Beat that if you can!"

"Wellcome"

Quick, too, is the delivery of all these laboratory diagnostics from Wellcome Reagents Limited. They are subjected to rigorous quality control, their performance is consistent and they are backed by Wellcome Research Laboratories' own original immunological work.

Virus Diseases of the Liver

A. J. Zuckerman, MD(Lond), MSc(Birm), MCPath

In recent years the identification of viruses, by use of tissue culture techniques, has led to a substantial extension of our knowledge of virus diseases. This book aims to supply information on research which has been carried out and describes methods which have recently been developed at the London School of Hygiene and Tropical Medicine. The results of various experiments are discussed, forming a comprehensive treatise which should be of great interest to all those concerned in this field of study.
