The Journal of General Virology

Volume 76 Part 3 March 1995

REVIEW

The subgroup F adenoviruses C. T. Tiemessen and A. H. Kidd 481-497
Lymphocyte recognition of picornaviruses E. J. Usherwood and A. A. Nash 499-508

BACTERIAL

Repair of phage λ DNA damaged by near ultraviolet light plus 8-methoxypsoralen K. Dye and S. I. Ahmad 723-726

PLANT

In situ localization of the non-structural protein P25 encoded by beet necrotic yellow vein virus RNA 3 A. M. Haeberlé and C. Stussi-Garaud 643-650
Populations of citrus tristeza virus contain smaller-than-full-length particles which encapsidate sub-genomic RNA molecules M. Mawassi, R. Gafny, D. Gagliardi and M. Bar-Joseph 651-659

ANIMAL

Antibodies to parvovirus B19 NS-1 protein in infected individuals A. von Poblotzki, A. Gigler, B. Lang, H. Wolf and S. Modrow 519-527
Identification and characterization of the protease product of gene 67 in equine herpesvirus type 1 strain A4 Y. Sun, A. R. MacLean and S. M. Brown 541-550
Evidence of a major neutralizable conformational epitope region on VP2 of infectious pancreatic necrosis virus E. Tarrab, L. Berthiaume, S. Grothé, M. O’Connor-McCourt, J. Heppell and J. Lecomte 551-558
Determination and comparative analysis of the small RNA genomic sequences of California encephalitis, Jamestown Canyon, Jerry Slough, Melao, Keystone and Trivittatus viruses (Bunyaviridae, genus Bunyavirus, California serogroup) M. D. Bowen, A. O. Jackson, T. D. Bruns, D. L. Hacker and J. L. Hardy 559-572

Sequencing and analysis of the nucleocapsid (N) and polymerase (L) genes and the terminal extragenic domains of the vaccine strain of rinderpest virus  M. D. Baron and T. Barrett 593–602

The role of template–primer interactions in cleavage and initiation by the influenza virus polymerase  M. Hagen, L. Tiley, T. D. Y. Chung and M. Krystal 603–611

Genetic analysis of porcine H3N2 viruses originating in southern China  K. Nerome, Y. Kanegae, K. F. Shortridge, S. Sugita and M. Ishida 613–624

Trypsin-resistant protease activation mutants of an influenza virus  M. Orlich, D. Linder and R. Rott 625–633

A monoclonal antibody to the gp120–CD4 complex has differential effects on HIV-induced syncytium formation and viral infectivity  K. Konopka, E. Pretzer, F. Celada and N. Dügzünuş 669–679

Productive infection and subsequent interaction of CD4–gp120 at the cellular membrane is required for HIV-induced apoptosis of CD4+ T cells  J. Corbeil and D. D. Richman 681–690

Influence of N-linked oligosaccharide chains on the processing, cell surface expression and function of the measles virus fusion protein  A. Hu, T. Cathomen, R. Cattaneo and E. Norrby 705–710

Diversity of genotypes of hepatitis C virus in southern India  T. Valliammai, S. P. Thyagarajan, A. J. Zuckerman and T. J. Harrison 711–716

CORRIGENDUM

Genetic conservation within subtypes in the hepatitis B virus pre-S2 region  K. Kidd-Ljunggren, A. M. Couroucé, M. Öberg and A. H. Kidd 727
