REVIEW

The role of neutralizing antibodies in hepatitis C virus infection
V. C. Edwards, A. W. Tarr, R. A. Urbanowicz and J. K. Ball
1–19

ANIMAL

RNA viruses

A cross-protective mAb recognizes a novel epitope within the flavivirus NS1 protein
20–26

A conserved region in the prM protein is a critical determinant in the assembly of flavivirus particles
K. Yoshii, M. Igarashi, O. Ichii, K. Yokozawa, K. Ito, H. Kariwa and I. Takashima
27–38

Structural gene (prME) chimeras of St Louis encephalitis virus and West Nile virus exhibit altered in vitro cytopathic and growth phenotypes
P. D. Maharaj, M. Anishchenko, S. A. Langevin, Y. Fang, W. K. Reisen and A. C. Brault
39–49

Comprehensive mapping of West Nile virus (WNV) and Japanese encephalitis virus serocomplex-specific linear B-cell epitopes from WNV non-structural protein 1
50–60

Association of heat-shock protein 70 with lipid rafts is required for Japanese encephalitis virus infection in Huh7 cells
61–71

Residues in domain III of the dengue virus E glycoprotein involved in cell surface glycosaminoglycan binding
D. Watterson, B. Kobe and P. R. Young
72–82

Viperin inhibits hepatitis C virus replication by interfering with binding of NS5A to host protein hVAP-33
S. Wang, X. Wu, T. Pan, W. Song, Y. Wang, F. Zhang and Z. Yuan
83–92

Experimental human rhinovirus and enterovirus interspecies recombination
93–101

Seroprevalence of St-Valérien-like caliciviruses in Italian swine
B. Di Martino, F. Di Profio, C. Ceci, V. Martella, A. Lavazza, I. Massirio and F. Marsilio
102–105

Front cover illustration

Deformed influenza A virions observed by negative-stain electron microscopy. Enveloped influenza virions are regularly spherical, elliptical or filamentous and about 100 nm in diameter, whose structure is readily deformed by physical damage mainly due to ultracentrifugation. Image courtesy of Dr Yoshihiro Kawaoka, Department of Pathological Sciences, School of Veterinary Medicine, University of Wisconsin-Madison, Madison, WI 53706, USA. See the paper by Sugita et al. in the November issue of J Gen Virol, vol. 92, part 11, pp. 2485–2493.
Modulation of lipopolysaccharide receptor expression by lactate dehydrogenase-elevating virus

D. Su, T. Le-Thi-Phuong and J.-P. Coutelier

The accumulation of influenza A virus segment 7 spliced mRNAs is regulated by the NS1 protein

N. C. Robb and E. Fodor

Natural and experimental infection of dogs with pandemic H1N1/2009 influenza virus

D. Lin, S. Sun, L. Du, J. Ma, L. Fan, J. Pu, Y. Sun, J. Zhao, H. Sun and J. Liu

Fusion of a fluorescent protein to the pUL25 minor capsid protein of pseudorabies virus allows live-cell capsid imaging with negligible impact on infection

Structural modelling and mutagenesis of human cytomegalovirus alkaline nuclease UL98

A. L. Kuchta, H. Parikh, Y. Zhu, G. E. Kellogg, D. S. Parris and M. A. McVoy

Epstein–Barr virus Rta-mediated transactivation of p21 and 14-3-3σ arrests cells at the G1/S transition by reducing cyclin E/CDK2 activity

Novel virus-encoded microRNA molecules expressed by ovine herpesvirus 2-immortalized bovine T-cells

C. S. Levy, J. Hopkins, G. C. Russell and R. G. Dalziel

Accessibility of the coxsackievirus and adenovirus receptor and its importance in adenovirus gene transduction efficiency

P. Sharma, A. O. Kolawole, S. M. Wiltshire, K. Frondorf and K. J. D. A. Excoffon

Intrabronchial inoculation of cynomolgus macaques with cowpox virus

Factors associated with the seroprevalence of 26 cutaneous and two genital human papillomavirus types in organ transplant patients

JC virus granule cell neuronopathy is associated with VP1 C terminus mutants

The C terminus of lettuce mosaic potyvirus cylindrical inclusion helicase interacts with the viral VPg and with lettuce translation eukaryotic initiation factor 4E

G. Roudet-Tavert, A. Abdul-Razzak, B. Doublet, J. Walter, T. Delaunay, S. German-Retana, T. Michon, O. Le Gall and T. Candresse

Repetitive prime-and-realign mechanism converts short capped RNA leaders into longer ones that may be more suitable for elongation during rice stripe virus transcription initiation

M. Yao, T. Zhang, T. Zhou, Y. Zhou, X. Zhou and X. Tao

DNA viruses

DNA viruses

PLANT
Factors influencing temporal variation of scrapie incidence within a closed Suffolk sheep flock
203–211

Evidence for distinct chronic wasting disease (CWD) strains in experimental CWD in ferrets
M. R. Perrott, C. J. Sigurdson, G. L. Mason and E. A. Hoover 212–221
