CONTENTS

J. Knop, H. H. Sedlacek & F. R. Seiler: Stimulatory effect of Vibrio cholerae neuraminidase on the antibody response to various antigens

E. P. Lester, J. B. Miller, J. M. Baron & S. Yachnin: Inhibition of human lymphocyte transformation by human alpha-foetoprotein (HAFP): studies on the mode of HAFP action and the role of HAFP polymorphism

A. J. Kilberg, L. M. Bartova & D. N. Evnin: Further studies of the adjuvant properties of homologous IgG split products. Mode of action of F(ab')2 and related fragments

Caroline Reuben, K. Sundaram & G. P. Phonke: Suppression of primary immune response by heterologous anti-lymphocyte sera

S. Jayaraman & Vr. Muthukkaruppan: Detection of cell-mediated immunity to sheep erythrocytes by the capillary migration inhibition technique in the lizard, Calotes versicolor

S. Jayaraman & Vr. Muthukkaruppan: Influence of route and dose of antigen on the migration inhibition and plaque-forming cell responses to sheep erythrocytes in the lizard, Calotes versicolor

B. Jones & Tina C. Jones: Allograft cytotoxicity co-operation between allogeneic T cells and macrophages

S. K. Wiwel, Joanne E. Graham & J. R. Allen: Acquired resistance to ticks. IV. Skin reactivity and in vitro lymphocyte responsiveness to salivary gland antigen

J. Chak & F. Lehmann-Grube: Immunological tolerance to lymphocytic choriomeningitis virus in neonatally infected virus carrier mice: evidence supporting a clonal inactivation mechanism

Margaret Nelson & D. S. Nelson: Macrophages and resistance to tumours. I. Inhibition of delayed-type hypersensitivity reactions by tumour cells and by soluble products affecting macrophages

M. B. C. Dunlop: Secondary cytotoxic cell response to lymphocytic choriomeningitis virus. III. In vivo protective activity of effector cells generated in vitro

E. Blitstein-Willinger & T. Diamantstein: Inhibition by Isoptin® (a calcium antagonist) of the mitogenic stimulation of lymphocytes prior to the S-phase

W. J. Hopkins: Restoration of suppressor function to atrophic mice

Gabriella Sármay, L. István & J. Gergely: Shedding and reappearance of Fe, C3 and SRBC receptors on peripheral lymphocytes from normal donors and chronic lymphatic leukaemia (CLL) patients

Helen K. Beard, M. Ueda, W. P. Faulk & L. E. Glynn: Cell-mediated and humoral immunity to chick type II collagen and its cyanogen bromide peptides in guinea-pigs

R. Hållgren, P. Säström & A. Bill: The uptake of IgG and IgM coated sheep erythrocytes in perfused rabbit liver

F. K. Stevenson & E. V. Elliott: Mediation of cytotoxic functions by classes and subclasses of sheep antibody reactive with cell surface immunoglobulin idiotypic and constant region determinants
