New Series From Nelson

Aspects of Microbiology

Series Editors:
Dr J A Cole, University of Birmingham
Dr C J Knowles, University of Kent

This major new series is designed to bridge the gap between introductory texts and research literature. Each title will familiarise the undergraduate student with current research and controversy.

First Volume in the Series
Oral Microbiology
P Marsh
Paper £2.35 0 17 771101 9

Other titles to be published:
Bacterial Toxins 0 17 771102 7 about £2.35
The Microbial Cell Cycle 0 17 771103 5 about £2.35
Bacterial Plasmids 0 17 771104 3 about £2.35
Further titles in preparation

CONTENTS

Review paper
N. A. STAINES & A. M. LEW: Whither monoclonal antibodies?

Y. YOSHIIKAI, S. MIKAE, T. MATSUMOTO, K. NOMOTO & K. TAKEYA: Relationship between non-specific activity of macrophages and immune responses to Listeria monocytogenes

CAROLYN A. BROWN, L. N. BROWN & V. S. SLIVIC: Active suppression masks an underlying enhancement of antibody production in vitro by spleen cells from BCG-infected mice

F. CARSWELL & JEAN OLIVER: Reduced tracheal mast cell numbers in adjuvant-sensitized rats associated with reduced pulmonary reactivity

G. A. MEDGUIES, GABRIELLA FÖRSÍ, B. DEZSÖ, J. GREGELY & H. BAZIN: Fc receptors of rat peritoneal macrophages: immunoglobulin class specificity and sensitivity to drugs affecting the microfilament or microtubule system

H. R. P. MILLER: Expulsion of Nippostrongylus brasiliensis from rats protected with serum. I. The efficacy of sera from singly and multiply infected donors related to time of administration and volume of serum injected

ANNE COOKE, PATRICIA HUTCHINGS & R. NAYAK: Specific and non-specific suppressor cell activity in NZB mice

F. CARSWELL & JEAN OLIVER: Reduced tracheal mast cell numbers in adjuvant-sensitized rats associated with reduced pulmonary reactivity

CAROLYN A. BROWN, L. N. BROWN & V. S. SLIVIC: Active suppression masks an underlying enhancement of antibody production in vitro by spleen cells from BCG-infected mice

ANNE COOKE, PATRICIA HUTCHINGS & R. NAYAK: Specific and non-specific suppressor cell activity in NZB mice

R. MUSALLAM J. BAIN A. MCGREGOR & M. DOENHOFF: Serum protein concentrations during Schistosoma mansoni infection in 'intact anh T-cell deprived mice. I. Immunoglobulin G and antibodies specific for heterologous erythrocytes

D. TRIZIO, C. DELLA BRUNA & ANNA M. ISSETA: Modification of immune responsiveness in murine Schistosomiasis mansoni. I. Time course after cercarial exposure

MARGARET PINDER, A. J. MUSOKE, W. I. MURISON & G. E. ROELANTS: The bovine lymphoid system. III. A monoclonal antibody specific for bovine cell surface and serum IgM

F. BURSOLINO & J. BENVENISTE: Pharmacological modulation of platelet-activating factor (PAF) release from rabbit leucocytes. I. Role of cAMP

CATHERINE F. C. MACPHERSON: Suppression and treatment of experimental allergic encephalitis in guinea-pigs with the bovine spinal cord protein (BSCP)

P. EB: Analysis of the in vitro immune response to insulin. I. Primary induction of insulin-specific T helper cells and characterization of the genetic control of the helper cell response to bovine and porcine insulin

M. SHRẢHI, K. NOMOTO, K. HIMENO & R. TERASAKA: Various immune reactions in hamsters after immunization with murine tumour cells and their roles in rejection

M. LAU LAURSEN & KIRSTEN LAURSEN: Dependence on antigen dose and timing in the immune response of C3H mice to malignant ascites cells

J. J. PRUZANSKY, C. R. ZEISS & R. PATTERSON: A linear correlation between histamine release and degranulation of human basophils by specific antigen or the ionophore A23187

J. G. TEW, T. E. MANDEL & PATRICIA L. RICE: Immune elimination and immune retention: the relationship between antigen retained in the foot and the elicitation of footpad swelling

J. V. FORRESTER & E. A. BALAZS: Inhibition of phagocytosis by high molecular weight hyaluronate

R. M. M. VICTORINO & H. J. F. HODGSON: Studies on the suppression of a one-way mixed lymphocyte reaction by mitomycin-C treated responder cells

C. R. STOKES, E. T. SWARBRICK & J. F. SOOTHILL: Immune elimination and enhanced antibody responses: functions of circulating IgA

J. RHODES & S. OLIVER: Retinooids as regulators of macrophage function

A. F. ROWLEY & N. A. RATCLIFFE: Insect erythrocyte agglutinins. In vitro opsonization experiments with Cidumnum extradentatus and Periplaneta americana haemocytes

Book Reviews

The subscription price is (£80 $240.00) post free, per three annual volumes of four parts.

BLACKWELL SCIENTIFIC PUBLICATIONS
OXFORD LONDON EDINBURGH MELBOURNE
Advances in Microbial Physiology
Volumes 18, 19 and 20
edited by A. H. Rose and J. Gareth Morris

Volume 18: 1979, x+312pp. $43.00/£18.60 (UK only) 0.12.027718.2

Volume 19: 1979, x+358pp. $41.00/£17.80 (UK only) 0.12.027719.0

Volume 20: 1979, x+368pp. $45.50/£19.60 (UK only) 0.12.027720.4
