The Journal of General Microbiology
Volume 129, Part 3, March 1983

DEVELOPMENT AND STRUCTURE
Complex Carbohydrates in the Cyst Wall of Histrichopus similis. By P. CALVO, A. TORRES, P. NAVAS and J. PEREZ SILVA ........................................... 829–832

PHYSIOLOGY AND GROWTH
The Effects of Methanol, Ethanol, Propanol and Butanol on Bacterial Attachment to Surfaces. By M. FLETCHER .......... 633–641
Growth of Streptococcus pyogenes and Streptolysin O Production in Complex and Synthetic Media. By J. E. ALOUE, J. D. J. E. KEMP and J. E. ALOUE ....... 643–651
The Role of Limited Respiration in the Incomplete Oxidation of Glucose by Saccharomyces cerevisiae. By M. RIEGER, O. KAPPEL and A. FIECHTER ............. 653–661
Modifications of Cell-wall Polysaccharides during Stipe Elongation in the Basidiomycete Coprinus cinereus. By T. KAMADA and T. TAKEMURA ................................................. 703–709
The Utilization of Nitrites and Amines by Nocardia rhodochrous. By P. A. COLLINS and C. J. KNOWLES ........................................... 711–718
Mineral ion-containing Vacuolar Inclusion Bodies Associated with Ca2+ Deficiency in Oogonia of Saprolegnia diclina and S. terrestres. By J. FLETCHER .......... 809–812
Non-co-ordinate Regulation of Rhizobium Nitrogenase Synthesis by Oxygen: Studies with Bacteroids from Nodulated Lupinus angustifolius. By B. D. SHAW ........................................... 849–857
Peptidoglycan-degrading Enzymes in Eher treated Cells of Neisseria gonorrhoeae. By S. J. CHAPMAN and H. R. PERKINS .......... 877–883

BIOCHEMISTRY
Isolation of β-Amyrin from the Fungus Aspergillus nidulans. By M. A. GEALT .......... 543–546
The essential Role of Diaminopimelate Dehydrogenase in the Biosynthesis of Lysine by Bacillus subtilis. By P. J. WHITE .......... 739–749
Studies on Outer Membrane Proteins of Moraxella nonliquefaciens. By E. V. M. ANDERSEN and L. O. FRÅSOLM .......... 823–827
Colicin E4-CT9 is Proteolytically Degraded after Discharge from Producing Cells in Liquid Cultures. By A. P. PUGSLEY .......... 833–840

GENETICS AND MOLECULAR BIOLOGY
Hybrid Plasmids Containing the Pyruvate Dehydrogenase Complex Genes and Gene–DNA Relationships in the 2.2 to 3 Minute Region of the Escherichia coli Chromosome. By J. R. GUEST, R. E. ROBERTS and P. E. STEPHENS .......... 671–680
Control of recA Dependent Activities in Escherichia coli: a Possible Role for the recF Product. By A. THOMAS and R. G. LLOYD .......... 681–686
Relationship of the Replication and Incompatibility Genes of an IncFV1 Haemolysin Plasmid with Other F-like Haemolysin Plasmids. By J. C. ZABALA, F. DE LA CRUZ and J. M. ORTIZ .......... 801–807

ECOLOGY
Effect of Bentonite Clay on the Growth of Gaeumannomyces graminis var. tritici and on its Interactions with Antagonistic Bacteria. By R. CAMPBELL and J. M. EPHRAVE .......... 771–777

PATHOGENICITY AND MEDICAL MICROBIOLOGY
Analysis of Polypeptides of Mutants of Mycoplasma pneumoniae that Lack the Ability to Haemadsorb. By J. FLENDERS and W. BREIT .......... 841–848
Antibody Responses to Antigens of Streptococcus mutans in Monkeys (Macaca fascicularis) Immunized against Dental Caries. By R. B. RUSSELL, S. L. PEACH, G. COLMAN and B. COHEN .......... 865–875

Contents continued on inside back cover
