Each service focuses on its own field of interest—in depth. Each provides an author index and full bibliographical information including complete author addresses. Each has an annual cumulative author and subject index.

Features:
- Over 1700 primary journals covered; 52 countries; 21 languages.
- All abstracts prepared by the full-time professional staff of Information Retrieval Ltd. of London.
- All abstracts in English, none more than 200 words in length.
- Current information; all papers of importance abstracted within 3 months of original publication.
- Over-all, approximately 40,000 abstracts appear each year.

Price:
The annual subscription rate (12 issues plus annual cumulation) is $150 for each abstract service; except Calcified Tissue Abstracts at $65.

The History of Difco Quality Control...

and what it means to you today

Difco was developed by producing better products through control of quality. Now there is a history of more than seventy years of dedication to accuracy and dependability, specialized equipment, exacting materials control. It's a history of a unique kind of control. Difco tests each ingredient before it is accepted for use. Testing throughout preparation assures compatibility. The finished product is then tested for dependable performance under the conditions for which the product is intended. Result? Perfectly standardized products that give reproducible results every time.

What does it mean to you?
Assured reliability. Savings in time and money.
Dependable microbiological results in your laboratory.

B&T are the sole concessionaire for DIFCO products. A complete line of microbiological reagents and media.

Abroad $10 post free

The main object of the Third International Symposium was to discuss the
reciprocal relationship between microbial physiology and continuous cul-
ture: how continuous culture is used to study microbial physiology; and how
the physiology of the microbial cell affects the practice of continuous cul-
ture. This book contains nineteen papers presented at the Symposium.

Obtainable from:
