IMMUNOLOGY
An Official Journal of the
BRITISH SOCIETY FOR IMMUNOLOGY
EDITOR: L. E. GLYNN

VOL. 27, NO. 2 AUGUST 1974

CONTENTS

B. B. LOZZIO and LILIANA B. WARGON: Immune competence of hereditarily asplenic mice

I. NAKASHIMA and N. KATO: Non-specific stimulation of immunoglobulin synthesis in mice by capsular polysaccharide of Klebsiella pneumoniae

R. W. LEID and J. F. WILLIAMS: The immunological response of the rat to infection with Taenia taeniaeformis. I. Immunoglobulin classes involved in passive transfer of resistance

R. W. LEID and J. F. WILLIAMS: The immunological response of the rat to infection with Taenia taeniaeformis. II. Characterization of reaginic antibody and an allergen associated with the larval stage

C. J. MEADE, P. J. LACHMAN and S. BRENNER: A sensitive assay for cellular hypersensitivity based on the uptake of radioactive colloidal gold

J. PEKÁREK, J. ŠVEJIČAR, D. ZITNÁN, J. ROVENSKY and L. CESECAUER: Spontaneous delayed hypersensitivity to DNA in NZB mice

S. M. MURPHY, SUSAN BROWN, NANCY MIKLOS and P. FIREMAN: Reagin synthesis in inbred strains of rats

E. S. K. ASSEM and MARGARET R. VICKERS: Tests for penicillin allergy in man. II. The immunological cross-reaction between penicillins and cephalosporins

M. R. WILLIAMS: Passive cutaneous anaphylaxis and its enhancement by normal IgG

R. KELLER: Mechanisms by which activated normal macrophages destroy syngeneic rat tumour cells in vitro. Cytokineti cs, non-involvement of T lymphocytes, and effect of metabolic inhibitors

MIREILLE DARDEENNE, MARTINE PAPERNIK, J.-F. BACH and O. STUTMAN: Studies on thymus products. III. Epithelial origin of the serum thymic factor

D. H. SUDSSTORF: Plaque-forming cells in rabbits following stimulation of the appendix with sheep erythrocytes

M. W. WHITEHOUSE, K. J. ORR, FRANCES W. J. BECK and C. M. PEARSON: Freund's adjuvants: relationship of arthritogenicity and adjuvanticity in rats to vehicle composition

W. BYRD, MARC FELDMANN and J. PALMER: The effect of erythrocyte antigen structure on requirement for T cells

The subscription price is £25, post free, per two annual volumes of six parts. Single parts are £2.50 each, postage extra

The Journal of Applied Bacteriology

edited for the Society for Applied Bacteriology
by R. G. Board, J. C. Carr,
F. A. Skinner and G. Sykes

Long-established as an international medium for original papers embracing the many aspects of applied bacteriology, the Journal serves the widening interests of microbiologists in all fields of research.
