The hub of the Compu-Pet universe

The General Diagnostics' peristaltic pump is the unique element in the Compu-Pet range of fluid handling instruments that are unsurpassed for the reproducibility, versatility and economy they bring to routine laboratory procedures. From the Compu-Pet range you can choose the fluid handling system to suit your own laboratory requirements. Whether your need is in radio-immunoassay, microbiology, serology, virology or immunology, the Compu-Pet range can handle, with speed and precision, most techniques from vial or bottle filling to complex dilution sequences.

GENERAL DIAGNOSTICS
Leaders in fluid handling systems.

CONTENTS
OCTOBER 1976

P. TRENCHEV & E. J. HOLBORROW: The specificity of anti-actin serum
TIN HAN, JUN MINOWADA, SANBAMURTHY SUBRAMANIAN & LUCIUS F. SINKS: Human thymus cells: blastogenic response to mitogens, antigens and allogenic cells
P. MEYERS & L. F. QUALTIERE: The efficacy of chemical bursectomy in chickens with congenital leukemia-virus infection
T. BABA & Y. OKUNO: Effect of bursa Fabricius extracts on antibody production in bursectomized or bursal cell autografted chickens
BRIGITTE A. ASKONAS, A. J. McMICHAEL & M. ESTELLA ROUX: Clonal dominance and the preservation of clonal memory cells mediated by antigen-antibody
EVERLY CONWAY DE MACARO & A. J. L. MACARO: Long-term synthesis in vitro, IV. Independent segregation of antibodies directed to different determinants of an antigen molecule in its native configuration
DIANE E. GUNSON & N. A. KEFALIDES: The use of the radioimmunoassay in the characterization of antibodies to basement membrane collagen
Y. MATSUURA: On the blood group B gene-specified α-galactosyltransferase in the serum of the Japanese tortoise (Clemmys japonica)
DIANE E. GUNSON, B. ARBOGAST & N. A. KEFALIDES: Rat parietal yolk sac basement membrane. An investigation of the antigenic determinants using a radioimmunoassay
L. A. FERNANDEZ, J. M. MACSWEEN & G. R. LANGLEY: Lymphocyte responses to phytohaemagglutinin: age-related effects
R. R. AVTALION & L. MILGROM: Regulatory effect of temperature and antigen upon immunity in ectothermic vertebrates. I. Influence of hapten density on the immunological and serological properties of penicilloyl-carrier conjugates
J. L. WAUTIER, H. SOUCHON, L. COHEN SOLAL, A. P. PELTIER & J. P. CAEN: C1 and human platelets. III. Role of C1 subcomponents in platelet aggregation induced by IgG
J.-M. DELAGE, JULIETTE SEMARD & GERTRUDE LEHNER-NETSCH: The enhancement of the haemolytic activity of the first component of complement by Trypsin
R. M. GORCZYNISKI: Autoreactivity developing spontaneously in cultured mouse spleen cells. I. Evidence that cytotoxicity is directed against embryo-associated antigen
R. M. GORCZYNISKI: Autoreactivity developing spontaneously in cultured mouse spleen cells. II. Comparison of cytotoxicity of cultured male and female spleen cells
R. M. GORCZYNISKI: Autoreactivity developing spontaneously in cultured mouse spleen cells. III. Inhibition of anti-embryo cytotoxicity in male T lymphocytes by female non-T cells
J. F. BOREL: Comparative study of in vitro and in vitro drug effects on cell-mediated cytotoxicity
THI HAN & BARBARA DADDY: T and B lymphocytes. Exclusive role as responders and stimulators in human 'one-way' mixed lymphocyte reaction
I. NAKASHIMA, F. NAGASE, T. YOKOCHI, T. KOSHI, M. HIDA & N. KATO: Comparative studies on the actions of antigen and polyclonal B-cell activator in differentiation and proliferation of B cells and B-memory cells
P. M. JOHNSON, W. PAGE FAULK & A. C. WANG: Immunological studies of human placenta: subclass and fragment specificity of binding of aggregated IgG by placental endothelial cells
H. P. GODFREY: The use of 1-fluoro-2, 4-dinitrobenzene as an affinity label for the antigen receptor of delayed hypersensitivity

OXFORD LONDON EDINBURGH MELBOURNE
Control of use of Dangerous Pathogens

The Working Party on Laboratory Use of Dangerous Pathogens whose report was published in 1975 (Cmnd 6054, HMSO) recommended a new scheme for control of work with very dangerous "Category A" pathogens. These are now listed as:

- Lassa Fever virus, Marburg virus, Rabies virus, Simian Herpes B virus, Smallpox virus, Crimean haemorrhagic fever virus (Congo), Machupo haemorrhagic fever virus, Junin haemorrhagic fever virus and Venezuelan equine encephalitis virus.

All laboratories holding any pathogens dangerous to humans even if they are not in the "Category A" list, should know about this control scheme.

Please write for details by returning the coupon below (Freepost).

If your laboratory is associated with a Government Department (i.e. within the Health, Education or Agriculture Services or managed by Research Councils) you should receive a copy without request.

Dangerous Pathogens Control Scheme

"JGM 1.76"
FEMS MICROBIOLOGY LETTERS
Published by Elsevier/North-Holland on behalf of the Federation of European Microbiological Societies

EDITOR-IN-CHIEF
D.W. Tempest, Amsterdam, The Netherlands

EDITORIAL BOARD
J.P. Arbuthnott, Dublin, Ireland
N.J. Dimmock, Coventry, England
W. Harder, Haren, The Netherlands
T. Holme, Stockholm, Sweden
P.H. Mäkelä, Helsinki, Finland
M.R.J. Salton, New York, N.Y., U.S.A.
M. Schwartz, Paris, France
J.E. Smith, Glasgow, Scotland
H. Veldkamp, Haren, The Netherlands
R. Whittenbury, Coventry, England

FEMS Microbiology Letters is intended to provide a vehicle for the rapid publication of short reports on all aspects of microbiological research.

Papers should be complete in themselves and adequately supported by experimental detail. Preference will be given to papers that merit urgent publication by virtue of their general interest and content of novel material.

1977 - Volumes 1 and 2 in 12 issues
Subscription Price:
US $95.50/Dfl. 248.00 including postage.

Journals are automatically sent by air to the U.S.A. and Canada at no extra cost and to Japan, Australia and New Zealand with a small additional postal charge.

Specimen copies will be available upon request from the Publisher.

Authors are invited to submit manuscripts for the first issue to any member of the Editorial Board.
