J. B. Leiper & J. B. Solomon: Ontogeny of mitogenic responsiveness to PHA and sheep erythrocytes and lymphokine production in foetal guinea-pigs

Y. Katamura: Cell-mediated and humoral immune responses in mice. III. Dynamic balance between delayed-type hypersensitivity and antibody response

Y. Katamura, M. Takao, S. Nishikawa & S. Muramatsu: Cell-mediated and humoral immune responses in mice. IV. Difference of the functional cell population between helper activity and delayed-type hypersensitivity

S. H. Zucker & S. D. Douglas: Effects of cholera exotoxin on Fc receptor activity of lymphoid cells and mononuclear phagocytes

A. A. Oru, R. J. Russell & R. G. White: Biphasic pattern of activation of the reticuloendothelial system by anaerobic coryneforms in mice

Cynthia M. Lewis & G. D. Pegrum: Lymphocyte surface membrane changes in dividing cells and following rigidification with mitogens

T. Bana & M. Kita: Effect of extracts of the bursa of Fabricius on IgG antibody production in hormonally bursectomized chickens

J. W. Stocker: Functional maturation of B cells in vitro

J. W. Stocker: Tolerance induction in maturing B cells

Sarah Howie: In vitro studies on H-2 linked unresponsiveness to synthetic polypeptide antigens. II. Induction of suppressor cells in both responsive and unresponsive mice to (T, G)-A-L and GAT

S. Deshayes, F. C. Hay & I. M. Roitt: The binding constants of IgM rheumatoid factors and their univalent fragments for native and aggregated human IgG

L. A. Rosenzweig, H. Michlin, Y. Kalechman & B. Sredni: Colony growth in vitro of mitogen-stimulated mouse B lymphocytes

M. E. Gershwin, B. Merchant & A. D. Steinberg: The effects of synthetic polymeric agents on immune responses of nude mice

D. W. Hough, Barbara M. McIlroy & G. T. Stevenson: Proteolysis of lymphocytic surface immunoglobulin

D. Chia, Carolle Dorsch, E. V. Barnett & L. Levy: Metabolism of exogenous single stranded DNA in normal and NZB/W mice

M. R. Potter & M. Moore: Human mixed lymphocyte culture using separated lymphocyte populations
