

PUBLISHING OPEN ACCESS VIA A PUBLISH AND READ AGREEMENT

We have partnered with Copyright Clearance Center to make the process of publishing your article **Open Access** as easy as possible.

Below is a visualization of the process and requirements from submission through to publication. If the information provided during submission is complete and accurate nothing further is required from authors. Your **Publish and Read** agreement will be applied automatically.

Any queries or problems, please contact journals@microbiologysociety.org

OPEN
ACCESS

1 SUBMISSION

- Corresponding author provides eligibility for **Publish and Read**.
- Affiliation and institutional email entered into submission details and provided on manuscript title page.
- Select 'Yes' in response to 'Do you wish to publish **Open Access**?' question.
- Click 'View Publication Charges' to confirm eligibility.

2 ACCEPTANCE

- Upon acceptance, the corresponding author receives an email with a link to request funding from their institution, with touch free profiles this is sent automatically.
- The library admin will then receive an email request to approve funding under the deal.
- This may be given automatically if the institution's profile is set to 'auto approval'.

3 PRODUCTION AND PUBLICATION

- Corresponding author receives an email confirming article is covered by **Publish and Read**.
- Corresponding author's institution is acknowledged on the bottom of the first page of the published paper.
